

EvaluateImpResults

```
graph BT; A[EvaluateImpResultsBp] --> B[EvaluateImpResults];
```

The diagram illustrates a relationship between two classes. At the top is a gray rectangular box labeled 'EvaluateImpResults'. Below it is a white rectangular box labeled 'EvaluateImpResultsBp'. A blue arrow points vertically from the top center of the 'EvaluateImpResultsBp' box to the bottom center of the 'EvaluateImpResults' box, indicating that 'EvaluateImpResultsBp' inherits from or implements 'EvaluateImpResults'.

EvaluateImpResultsBp
